BOARD OF INDUSTRIES AND COMMERCE.

AWARD OF SUPERIOR TECHNICAL AND ARTIZAN SCHOLARSHIPS.

Notice dated 9th July 1920.

The Industries and Commerce Board are awarding three superior technical scholarships of the value of Rs. 50 each and artizan scholarships of the value of Rs. 10, 15 and 20 during the year 1920-21.

Applications in the form appended are invited from candidates for the above scholarships before the 15th of August 1920.

Qualifications necessary for the award of the scholarships and conditions subject to which they will be granted are given below.

1. Scholarships are granted for advanced practical training in workshops, factories, etc., to candidates who have passed out of technical institutions or to those who are actually engaged in any profession and who desire to improve their knowledge of same.

2. No scholarship will be granted for training in technical schools.

3. Only such persons as are in the opinion of the Board likely to earn a livelihood in the State by the pursuit of the industry, either by reason of their technical training, or otherwise, will be eligible for the scholarships.

4. The term of each scholarship will ordinarily be one year but the period may be extended from year to year, up to three years of the option of the Board of Industries and Commerce in the case of promising candidates.

5. The continuance of the scholarships will depend on satisfactory reports of progress received from the Manager of the Factory of the workshop in which the candidate is undergoing training.

6. Any scholarshipholder that fails to complete his course of training or after completion of the course is not employed in any business in which the training is of use, shall, if required, be bound to refund half the aggregate amount paid to him in the shape of scholarships.

Scholarships will be granted only to natives of Mysore either by birth or domicile.

(*N.B.*—Candidates that have already put in their applications need not apply again, but they will be supplied with forms of application for furnishing full information.)

Application forms will be obtained on application to the undersigned:—

Mysore District.—No change as far as prices are concerned.

In all the taluks of the district, with the exception of Hunsur and Heggaddevankote, rain is required, more especially in French Rocks, Nagamangala, Malvalli and Mandya.

In Hunsur and Heggaddevankote the break in the rains has been welcome.

Tumkur District.—Except Tumkur, Gubbi, Chiknayakanhalli and Koratagere the other taluks had practically very little rain while Tiptur and Turuvekere had no rain at all. Rain is urgently required in all the places. Owing to this and also to the short supply to the market on account of raiyats being engaged in agricultural work, the price of ragi has gone up to Rs. 88 to Rs. 90 per cart-load though that of paddy remains stationary. Government Depots continue only in Tumkur, Gubbi, Koratagere and Pavagada. There is little demand for Burma rice even in these places. Steps are being taken to dispose of the stocks early.

Kolar District.—Rainfall is general throughout the district but very scanty. More rain is urgently wanted for sowing operations which in many places are at a standstill.

Local rice is getting dear and is now being sold at 4 to 4¼ seers a rupee and ragi at 7 to 7¼ seers. Markets are fairly well supplied.

The sale of Burma rice is slack.

Hassan District.—There was a fairly good fall of rain during the week in the district except in the Taluks of Arsikere, Hole-Narsipur and Channarayapatna which had very little rain.

The markets were fairly well supplied with food grains. Standing crops such as paddy, ragi and sugar-cane are in a good condition. Transplanting of paddy was in progress in the Hole-Narsipur Taluk. *Mungar* crops are reported to be suffering for want of rain in the Arsikere Taluk. *Kar* paddy is being reaped in Arsikere Taluk.

Prices are still high.

Tanks have not received any appreciable supply of water.

The prospects of the season are generally good for the present. Rain is urgently wanted in the Arsikere and Channarayapatna Taluks.

Shimoga District.—Rain has continued in the malnad parts of the State where the prospects are distinctly good. In Honnali Taluk however more rain is urgently wanted particularly in the drier parts.

A slightly upward tendency was noticed in the price of rice during the week.

Kadur District.—Food stuffs were available in all the markets in sufficient quantities. But their prices continued to rule high as usual.

The total rainfall gauged at Mudgere during the month of July is 41 inches and 57 cents, which is unusually high for this month.

Chitaldrug District.—Davangere, Holalkere and Harihar had light showers during the week while there was little or nothing in the other taluks.

There has been a total failure of the mungar rains in the Taluks of Hiriyur, Challakere, Molakalmuru and a portion of Chitaldrug Taluk. Fodder also is getting scanty in these places and the prospects of the season are by no means satisfactory. The prices of food grains remain unaltered.

General (by Food Controller).—There has been very little rain this week in the maidan parts of the State and much anxiety is felt as to season prospects in parts of the Mysore, Bangalore, Kolar, Tumkur and Chitaldrug Districts.

In parts of the Tumkur District it is reported that markets were not adequately supplied and the price of ragi in Tumkur is said to have gone up to Rs. 90 per cart-load of 640 seers. The price of rice in the Shimoga District has also shown an upward tendency. The markets in the other parts of the State were fairly well supplied and the prices of food grains were almost stationary.

The demand for Burma rice in Bangalore continues as before. Elsewhere the demand had greatly slackened.
